

EPILOGUE: RETURN TO PARADISE

Henderson could always trust his feet, the long planks of the Underflow's deck creaking beneath them as the foremast bucked against the crosswinds in the silky fog outside of San Francisco Bay. The City in the Clouds grew smaller behind him, the sun dead off the bow, the bustle of the city blending into a single line where the coast separates the water and the sky.

He'd be a wanted man, a thief, maybe even called a pirate by some. Even the distraction of the country getting carved up with steel track wouldn't cover a vessel like the Underflow going missing. Samuels would aim to collect. Eventually Samuels would wonder. But eventually didn't concern Henderson any longer. His heart beat with the rise and fall of the hull, his body knew this gravity as his feet knew the boards beneath them. Henderson sought honest respite, maybe for the first time in his life.

Emilie had said it best, a whisper on the docks: "You are no longer burdened by time," she had said, her breath warm on his ear. "You must fade away from this place for a few years. Mallory and I will meet you where the mountains pray behind the waterfalls."

"I know that place," Henderson had said.

"I remember it well, I shall return."

One of the greatest facets of Tiki is a universal love for those who celebrate it. We'd be crazy not to call out a few of our favorite ports in the storm and a few of their great cocktails as well.

Plenty of Paradise to go around, don't you think?

• FROM THE MAINLAND •

We're certain that even the heartiest of pirates and privateers occasionally yearned for a great cocktail without a blend of island rum. These delicious choices "From the Mainland" feature all your tiki and tropical dreams, but highlight other spirits besides rum. Enjoy!
